

One-Step-Plus™ Automatic Pack Slip Applicator

Automate the Application of 8.5" x 11" packing sheet and shipping label

Go Green - Ditch the Pouch

The Numina Group, the industry leader in pick, pack and ship process automation introduces One Step Plus™; a game changing advancement for streamlining the packing, shipping, and manifesting process. One Step Plus™ automatically prints and applies both the packing sheet and shipping label in a single step; eliminating manual workstations and hand applied labels and documents in a plastic pouch.

Technology is the Key!

Real-Time Distribution Software (RDS), Numina's advanced warehouse control system is a proven solution for automating labeling applications throughout distribution operations. RDS directly controls parcel tracking, conveyor, identification, weighting, labeling and the validation of the entire process. The patent pending technology precisely prints and applies the pack sheet and shipping label providing error-free, unattended operation.

Proven Performance with Rapid Payback

The system prints, folds, and tucks the high resolution laser or thermal transfer packing sheet securely under the removable shipping label in real-time.

- Automate Packing, Shipping, and Manifesting
- Reduce Labor & Increase Accuracy
- Cuts 40-50 seconds of labor from Every Order Shipment
- Auto Print, Fold and Tuck 8.5" x 11" Packing Sheet under a Removable Secure Shipping Label
- Increase Shipment Throughput & Revenue

Full size packing sheet is automatically printed, "folded & tucked" under the removable shipping label as shown below.

Each process step is fully validated to assure accuracy, eliminate manual labor and errors performing the equivalent work of 6-8 operators in a 3,500 to 6,000 plus shift operation.

Get One-Step Plus™ and accelerate the performance of your order fulfillment operation. Reduce labor, increase shipment throughput, and get a competitive edge.

Shipping Label

Removable

Packing Sheet

The shipping label is printed and held on the applicator tamp. The packing sheet is printed, folded and applied to the bottom of the shipping label. The shipping label is then applied to the top of the carton with the packing sheet securely placed under the removable label.
